

# ASA Winter Premiership 2018

## POINTS SYSTEM

A new point system has been introduced to create a fairer more even competition across all ages that awards both excellence and participation.

Individuals and Teams score Individual Points (IP's) for their club within their respective age group which will go towards ranking their club within each competition for Club Points (CPs). If a race contains nine (9) or less registered individuals, they earn IP's based on the final place getter.

The last athlete to cross the finish line shall receive 1 point and every athlete who finishes ahead shall receive 1 more point than the placing behind them. The winner of the race receives an additional one (1) point.

In races where there are more than nine (9) registered individuals, the top nine (9) placegetters shall be awarded points based on the above system and all others shall only receive one IP point.

For relay events, the same system of scoring will be used for all legal teams as if they were registered individuals. However, Relay events score double the IP's that Individual events do.

At the completion of each competition the IP's for each gender and age group are added up for every club and ranked in order from highest to lowest. In the event that the total IP's of two clubs are the same, the club with the higher placing finisher shall be ranked ahead of the other.

Clubs shall receive ten (10) CP's, second will receive eight (8) and all clubs thereafter will receive one (1) less point than the club ranked directly above them. If more than nine clubs compete at one event in one gender & age category, all other clubs shall also receive one (1) CP.

At the conclusion of each event the U14 & U16 age groups, the U18 & U20 age groups and the O35 & O50 age groups CP's are combined towards the overall Winter Season Champion. The club with the highest CP in each category will be announced the Winter Season Champion. In the event of two clubs having equal CP's at the conclusion of the season, the club with the higher overall IP's will be awarded ahead of the other club in rankings.
